

LEDiL

PRODUCT CHANGE NOTIFICATION

Date: April 27, 2023
PCN: PCN LEDiL 192

Subject: PCN 192 - Change of YASMEEN-50 and -70 holder design

Description: As part of our continuous product improvement process, LEDiL is releasing new holders with both mechanical and aesthetic improvements for our [YASMEEN-50](#) and [YASMEEN-70](#) product families. These new holders will replace the current ones, and the ordering codes will be updated accordingly.

The new holder design includes the following improvements:

1. No side openings to prevent light leakage and improve overall aesthetics.
2. A slimmer design to support tighter luminaire bodies.
3. The HLD2-C variant (compatible with LEDiL HEKLA) features a larger LED opening for improved thermal performance.

The main mechanical dimensions, such as height and width, and the connectivity interfaces will remain the same.

[NEW holder design](#)

OLD holder design

Read more [here](#)

Timeline: This change is effective immediately. Old holder assemblies will be available for orders for the next six months with the current minimum order quantity (MOQ). The last time to buy these assemblies will be on September 27th 2023.
