

## BARBARA-PF-RZ – Release your creativity with color-mixing BARBARA-PF system reflectors

LEDiL has added color-mixing capability to its BARBARA-PF system reflector family. BARBARA-PF is a versatile mid-sized easy-going reflector option to a variety of application areas. Now with the additional RZ-mixing sub-lens it's easy to switch from conventional lighting to full color whether tunable white or RGBW

We have included saved search paths for your convenience. You can go to [www.ledil.com/barbarafamily](http://www.ledil.com/barbarafamily) which will take you directly to the family listing.

## BARBARA-RZ lens installation

1. Align the openings in the lens with the reflector and push the lens into bottom of the reflector so that it will stay in place during the installation.
2. Align the pins in the socket with the holes in the reflector feet and push the reflector fully into the socket.
