

TINA2-O-WAS – Small wall washer with oval light distribution

Well-made artistic and architectural lighting can be delightful and uplifting to see in everyday life. LEDiL's range of smaller size optics designed for good quality wall-washing applications are a perfect match for this purpose. The asymmetric oval light distribution ensures an exciting and uniform looking illuminance whether being aimed at smooth or rough surfaces. Latest addition to this lineup is TINA2-O-WAS. Our smallest optic designed for wall-washing applications gives you the freedom to create beautiful lighting while keeping the light sources easily out of sight.
